I do not play active chess any more. My FIDE rating is 2310, my highest US chess rating was 2410 (senior chess master). New Hampshire state chess champion in 1994.

Biggest upset for me was in 1994, when in last round, and was so close to winning the US open (as a tied position with 3 others), then I blundered what was earlier a winning position. Earlier on I also did not accept an offer of a draw. Oh, well, but this is chess I guess.

I do not think I'll get that chance of getting this close to winning US open again now.

Collected my chess games here (not complete, contains all my games except the last 50 or so games I played in Europe before I quit active chess playing). May be one day I'll complete this.

My chess games

Chess titles

- 1. Fide chess master (FM)

- 2. US chess master

- 3. US senior chess master

- 4. letter from US chess federation

These are pics I took from Hastings International 1978. This is GM Vasily Smyslov in the picture. I think this tournament was won by GM Andersson.
